\*Entrance to major requires minimal math level of completion of MATH 022 (MAT 121) and IST 110 (CIS 110 and CIS 170), IST 210(IST 148) and IST 220(CIS 180). Students who have not completed the math requirement, but are missing one or more of the IST courses will be admitted to pre-major status and may complete the courses at PSU.

*Penn State requires three credits of International Cultures (IL) and three credits of United States Cultures (US). The courses that fulfill the IL and US requirements can also be used to fulfill General Education Arts, Humanities or Social Science requirements.*

*Two units in a single world language other than English are required. However, a student may be admitted with fewer than two units in a world language other than English, but must correct this deficiency by the time the student graduates from Penn State. This deficiency may be corrected by passing one three- or four-credit college-level world language course or by demonstrating proficiency equivalent to two units of high school world language study.*

General Education Equivalencies

The following Luzerne CC courses will meet PSU General Education requirements. Students should consult the program-to-program guides above when selecting general education courses and are advised to consult with PSU Undergraduate Admissions staff with questions. Additional Luzerne CC courses may satisfy PSU General Education courses upon submission of syllabi by the student and review and approval by PSU.
